Dear Colleagues

European Association of Dermato-Oncology (EADO) meeting is now becoming a yearly event around skin cancer, where researchers and clinicians know that they can find both the most new data, the best review but also the practical information in the fields of melanoma and non-melanoma skin cancer.

It is our pleasure to host this 7th EADO Meeting in the Conference Center in the heart of Nantes, by the famous “Anne de Bretagne” castle. Nantes, town where Jules Verne is born, is also a city where walking in the streets or along the piers can permit to meet the “Royal de Luxe”, a famous French mechanical marionette street theatre company and the “Belem” a three-masted barque built in 1896 and which is now a sail training ship for National Marine. Finally, in less than 45mn you could lengthen on the sand of the most famous European beach “La Baule” and swim in the Atlantic Ocean.

During this meeting you will find the state of the art in prevention, recognition, and treatment of cutaneous neoplasms covering melanoma and non melanoma skin cancer as well as lymphomas and rare skin tumors. You will have the opportunity to discuss with international experts about surgery, adjuvant treatment, innovative diagnostic, imaging and treatment techniques in skin cancers. You also will have the occasion to have an overview of all main clinical trials activated in the field of skin cancer and to develop new collaborations during the intersession.

We look forward to seeing you in June 2011 at the astonishing city of Nantes for new scientific exchanges on skin cancers. Your participation to EADO 2011 will make of this international multidisciplinary meeting a new success and will be a strong evidence of the crucial role of Dermatologists in the field of skin cancers.
